

“Hatrak Scheduler”

For The Small Business

Employee Scheduling

The Hatrak Scheduler is ideal for the small business. It can reside on the desktop or on the internet / intranet. In a matter of minutes, you can set the system up and begin scheduling. The Hatrak Scheduler is affordably priced. Try it today, risk free. The first 30-days is free. There is no obligation to continue beyond the 30-day trial.

SMALL BUSINESSES CAN AVOID EXPENSIVE SOFTWARE COSTS USING LAMP

The Hatrak Scheduler uses LAMP technology. LAMP is open, source and it comes free of charge. This is a huge advantage for the small business with a limited technology budget. It is technology neutral. That means it can be used on any of the popular operating system and with any of the popular database.

LAMP is short for *Linux, Apache, MySQL and PHP*. **LAMP** is an open-source Web development platform that uses Linux as the operating system, Apache as the Web server, MySQL as the RDBMS and PHP as the object-oriented scripting language. **LAMP** is fast becoming the platform of choice for the development and deployment of high performance web applications. It is solid and reliable.
